

March 17, 1976

PRESIDENT: Senator Chambers.

SENATOR CHAMBERS: Mr. Chairman and members of the Legislature. There was some confusion about the state of this bill and certain representations had been made to us. I had talked to Senator DeCamp and I have some amendments to offer. Excuse me. Instead of returning his amendment and having it adopted, then sending the bill back and then me bringing it back, we were going to try to incorporate my amendment into his to begin with as part of his specific amendment. The Clerk would have a copy of mine on the desk. That would be there and the language could be attached right with his. I'd handed out a copy to all of the members of what I'm interested in. That would then become a part of Senator DeCamp's specific amendment.

PRESIDENT: Senator Kime or DeCamp? Whose amendment are we returning this for, Kime or DeCamp?

SENATOR CHAMBERS: They're together. Senator DeCamp and Kime were asking.... I guess Senator DeCamp will take it.

PRESIDENT: Whose the author of the amendment which we will ultimately vote on if it gets returned? Yes.

SENATOR DeCAMP: Mr. President, the concern yesterday was the use of special deputies for particular companies. In consultation with the representatives of those companies they said they were neutral on it, had no position. I'm going to take these people at their word, believe they're telling the truth, hope they are and go along with Senator Chambers' amendments.

PRESIDENT: Alright but when this gets back to Select File we're going to have an amendment offered. Whose going to offer that amendment?

SENATOR DeCAMP: Well it be Senator Kime's and my amendment, or Senator Kime's and mine and Senator Chambers. I don't care. His amendment is just added to those ones we have.

PRESIDENT: Alright. Is the one we have Senator Kime's?

SENATOR DeCAMP: Yes, we're just adding the other couple amendments of Senator Chambers.

PRESIDENT: OK. Senator Kime, do you object to Senator Chambers amendment being added to yours and being referred to as Senator Kime's amendment?

SENATOR KIME: That's right, yes.

PRESIDENT: You don't object to that?

SENATOR KIME: No.

PRESIDENT: Alright. Mr. Clerk, can that be done? Add Senator Chambers work product to Senator Kime's amendment and we'll call it the Kime amendment.
